

Rolling Knee Walkers

Rolling knee walkers are a great way to help you maintain non-weight bearing status. Unfortunately we do not carry them in office. Below is a list of online sites to help guide your search. Rolling knee scooters are available to rent as well as for purchase. These are not typically covered by insurance; however, some of the sites listed do have insurance-specific information to see if there is a way for the knee scooter to be covered. Additionally, your local medical supply store may carry these scooters.

If a script is needed, please feel free to call 617-667-3940 and we can fax a script wherever it needs to go.
